PRIVACY IMPACT ASSESSMENT (PIA)

PRESCRIBING AUTHORITY: DoD Instruction 5400.16, "DoD Privacy Impact Assessment (PIA) Guidance". Complete this form for Department of Defense (DoD) information systems or electronic collections of information (referred to as an "electronic collection" for the purpose of this form) that collect, maintain, use, and/or disseminate personally identifiable information (PII) about members of the public, Federal employees, contractors, or foreign nationals employed at U.S. military facilities internationally. In the case where no PII is collected, the PIA will serve as a conclusive determination that privacy requirements do not apply to system.

Significantly Modified DoD Information System						
 Describe the purpose of this DoD information system or electronic collected in the system. 	lectio	n and describe the types of person	al information about individuals			
DoD and aggregates their content into a single, defense-wide portal. The result is a consolidated catalog of joint training and education experiences for the purpose of performance improvement, up-skilling, career-field management, and cross-training DoD personnel. Records are also used as a management tool for statistical analysis, tracking, reporting to Congress, evaluating program effectiveness, and conducting research. The types of personal information being collected include: First name, last name, DoD ID, date of rank, military branch, occupation, duty station, joint professional military education status, joint qualification level, skill code, and DoD email address. Also includes information on billets such as service, unit identification code, tour length, rank, job title, and critical billet code. Personal interests and learning goals are derived from tracking use of the course catalog. The Enterprise Competency and Credential Registry (ECCR) is an open-source software that is designed to define and manage competencies and competency frameworks. It provides tools for creating new competency frameworks, as well as cross walking the relationships between competencies in other frameworks. The ECCR enables the collection, processing, and assertions of competences that courses stored in the ECC are aligned with. The ECCR software provides a robust common language and translation method linking competencies, evidence of attainment, and associated resources. The types of personal information being collected include: First name, last name, DoD ID, date of rank, military branch, occupation, duty station, joint professional military education status, joint qualification level, skill code, and DoD email address. Also includes information on billets such as service, unit identification code, tour length, rank, job title, and critical billet code. Personal interests and learning goals are derived from tracking use of the ECCR.						
d. Why is the PII collected and/or what is the intended use of the PII? (e.g., verification, identification, authentication, data matching, mission-related use, administrative use)						
Personally Identifiable Information is collected for the purposes of identification, verification, and mission related uses. The information retained in the ECC / ECCR is used to identify individuals preferences, learning goals, and interest levels in different programs of instruction. This system is used to expedite access to individual training and education opportunities, professional development, and just-intime training to support mission-related functions.						
e. Do individuals have the opportunity to object to the collection of their PII?						
(1) If "Yes," describe the method by which individuals can object to the collection of PII.						
(2) If "No," state the reason why individuals cannot object to the collection of	PII.					
Personally Identifiable Information is not collected directly from the individual. This information is extracted from existing personnel systems.						
f. Do individuals have the opportunity to consent to the specific uses of their PII? Yes X No

If "No," explain why the SORN is not required in accordance with DoD Regulation 5400.11-R: Department of Defense Privacy Program.
I. What is the National Archives and Records Administration (NARA) approved, pending or general records schedule (GRS) disposition authority for the system or for the records maintained in the system?
(1) NARA Job Number or General Records Schedule Authority.
(2) If pending, provide the date the SF-115 was submitted to NARA.
(3) Retention Instructions.
Disposition pending. Retain indefinitely until the retention and disposition is approved by NARA (National Archives and Records Administration).
m. What is the authority to collect information? A Federal law or Executive Order must authorize the collection and maintenance of a system of records. For PII not collected or maintained in a system of records, the collection or maintenance of the PII must be necessary to discharge the requirements of a statue or Executive Order.
(1) If this system has a Privacy Act SORN, the authorities in this PIA and the existing Privacy Act SORN should be similar.(2) If a SORN does not apply, cite the authority for this DoD information system or electronic collection to collect, use, maintain and/or disseminate PII. (If multiple authorities are cited, provide all that apply).
(a) Cite the specific provisions of the statute and/or EO that authorizes the operation of the system and the collection of PII.
(b) If direct statutory authority or an Executive Order does not exist, indirect statutory authority may be cited if the authority requires the operation or administration of a program, the execution of which will require the collection and maintenance of a system of records.
(c) If direct or indirect authority does not exist, DoD Components can use their general statutory grants of authority ("internal housekeeping") as the primary authority. The requirement, directive, or instruction implementing the statute within the DoD Component must be identified.

n. Does this DoD information system or electronic collection have an active and approved Office of Management and Budget (OMB) Control Number?
Contact the Component Information Management Control Officer or DoD Clearance Officer for this information. This number indicates OMB approval to collect data from 10 or more members of the public in a 12-month period regardless of form or format.
Yes X No Pending
 (1) If "Yes," list all applicable OMB Control Numbers, collection titles, and expiration dates. (2) If "No," explain why OMB approval is not required in accordance with DoD Manual 8910.01, Volume 2, " DoD Information Collections Manual: Procedures for DoD Public Information Collections." (3) If "Pending," provide the date for the 60 and/or 30 day notice and the Federal Register citation.
This system does not collect information on members of the public, only Service members.
