In the case where no PII is collected, the PIA will serve as a conclusive determination that privacy requirements do not apply to system.

- ☐ From members of the general public ☐ From Federal employees
- ☒ from both members of the general public and Federal employees ☐ Not Collected (if checked proceed to Section 4)

c. Describe the purpose of this DoD information system or electronic collection and describe the types of personal information about individuals collected in the system.

The purpose of the DTS is to provide a DoD-wide travel management process which will cover all official travel, from pre-travel arrangements to post-travel payments. Also, the DTS verifies individual travel information is accurate, current, and meets DoD foreign nation requirements for travel within the continental United States and outside the continental United States. The system facilitates the processing of official travel requests for DoD personnel and other individuals traveling on DoD travel orders. The DTS provides information to financial systems to reimburse individual travel expenses, as well as to a commercial system to facilitate a voluntary rewards program for travelers using government travel charge cards (GTCC) for select purchases. The DTS includes a tracking and reporting system to monitor travel authorizations, obligations, and payments. Additionally, the DoD uses the DTS data to conduct surveys of program effectiveness, provide insight into the gap between product/service delivery and customer expectations, and assist in understanding the drivers of customer satisfaction.

The DTS business intelligence tool and archives provide a repository for reporting and archiving travel records. It assists with planning, budgeting, and allocating resources for future DoD travel, conducting oversight operations, analyzing travel, budgetary, or other trends, detecting fraud and abuse, and provides a mechanism for responding to authorized internal and external requests for data relating to DoD official travel and travel-related services.

The DTS collects the following types of personal information: Full name, Social Security Number (SSN), DoD Identification Number (DoD ID Number), sex, date of birth, place of birth, citizenship, Passport information, Visa information, mailing address, home address, emergency contact name, phone number and personal email address. Employment information including: Service/Agency, duty station information, title/rank/grade, civilian/military status information, work email address, work phone number, and security clearance level. Financial information including: GTCC number and expiration date, personal credit card number and expiration date, personal checking and or savings account numbers and bank routing information. Travel information including: Frequent flyer information, travel itineraries (includes dates of travel) and reservations, trip record number, trip cost estimates, travel vouchers, travel-related receipts, travel document status information, travel budget information, commitment of travel funds, records of actual payment of travel funds, and supporting documentation.

d. Why is the PII collected and/or what is the intended use of the PII? (e.g., verification, identification, authentication, data matching, mission-related use, administrative use)

PII is collected for identification and verification for airline ticketing in compliance with Homeland Security regulations, as well as verification of bank account information for direct deposit of voucher and payment of travel card expenses. Other use of information includes travel preferences such as frequent flyer information, TSA Pre-Check number, and passport information.

e. Do individuals have the opportunity to object to the collection of their PII? ☒ Yes ☐ No

(1) If "Yes," describe the method by which individuals can object to the collection of PII.

(2) If "No," state the reason why individuals cannot object to the collection of PII.

If individuals object to the collection of their PII, then they should not enter the DTS system or accept the disclosure upon DTS login. They may request a manual itinerary generation to reduce the amount of PII that is collected, however, ultimately, if they choose to travel on DoD orders, they must allow the collection of PII. The privacy notice presented to the user prior to login states "DISCLOSURE: Voluntary, however, failure to provide all of the requested information may preclude the processing of both the travel request and the claim for reimbursement."

f. Do individuals have the opportunity to consent to the specific uses of their PII? ☒ Yes ☐ No

(1) If "Yes," describe the method by which individuals can give or withhold their consent.

(2) If "No," state the reason why individuals cannot give or withhold their consent.

Individuals have opportunity to consent before entering the site by clicking "accept" on the Privacy and Ethics Policy banner page. Once stored within the system, use of the data is controlled by the DTS application, not by the user.

g. When an individual is asked to provide PII, a Privacy Act Statement (PAS) and/or a Privacy Advisory must be provided. (Check as appropriate and provide the actual wording.)
